

**REMARKS**

The specification has been amended at page 7, as required by the Examiner. In addition, two grammatical corrections have been made in the same paragraph. No new matter has been added by this amendment.

Claims 1 and 4-7 have been amended. Claims 1-7 remain in the application. Claims 2-3 were allowed in the first office action, and claims 1 and 4-7 were identified as being drawn to allowable subject matter. The amendments above should place claims 1-7 in *prima facie* condition for allowance.

Claims 1 and 4-7 were objected to for various informalities. These informalities have been addressed as follows:

- A) "the telephone set" has been changed to "one of the telephone sets" at several locations identified by the Examiner in claims 1, 4 and 7.
- B) the preamble of claims 5-7 have been amended to recite "a telephone communication system according to claim 4 wherein the telephone controller".
- C) "the" has been changed to "an" in claims 1 and 4 when referring to "an ID" and "an extension".

In view of the above, all informalities have been addressed and claims 1-7 should now be allowed. Reconsideration and allowance at an early date is requested.

Respectfully submitted,
